2022-2023

KATA PENGANTAR

Puji dan syukur kami panjatkan kepada Tuhan Yang Maha Esa, yang telah melimpahkan rahmat dan hidayah-Nya kepada kami, sehingga kami dapat menyelesaikan tugas makalah bidang studi web programming dengan baik.

Makalah ini telah kami susun dengan maksimal tanpa ada halangan yang berarti. Makalah ini disusun untuk memenuhi tugas akhir mata kuliah semester 3 yang diampu oleh Ibu Elah Nurlelah, S.KOM, selaku dosen mata kuliah Web Programming I. Untuk itu kami menyampaikan banyak terima kasih kepada semua pihak yang telah membantu dalam pembuatan proposal ini.

Terlepas dari semua itu, Kami menyadari sepenuhnya bahwa masih ada kekurangan baik dari segi susunan kalimat maupun tata bahasanya. Oleh karena itu kami menerima segala saran dan kritik dari pembaca agar penulis dapat memperbaiki proposal ini.

Kami berharap semoga proposal tentang pemrograman yang baik ini dapat memberikan manfaat maupun inspirasi terhadap pembaca.

BAB 1

PENDAHULUAN

1.1 Latar Belakang

Perkembangan teknologi informasi telah mendorong fenomena e-commerce menjadi pilar utama dalam dunia bisnis global. E-commerce memungkinkan transaksi tanpa batas wilayah, memberikan efisiensi waktu dan biaya. Keuntungan ini tidak hanya dirasakan oleh pelaku bisnis, tetapi juga mengubah cara konsumen mengakses dan memperoleh produk atau jasa.

Namun, bersamaan dengan kemudahan tersebut, e-commerce juga menghadirkan tantangan baru seperti keamanan transaksi dan persaingan yang intens. Penting bagi perusahaan e-commerce untuk terus berinovasi, mengoptimalkan teknologi, dan memahami tren pasar guna tetap bersaing.

Melalui makalah ini, diharapkan pembaca dapat mendapatkan pemahaman yang komprehensif tentang pentingnya e-commerce dalam dunia bisnis saat ini.

1.2 Identifikasi Masalah

- Keamanan transaksi online
- Persaingan yang intensif
- Ketergantungan pada teknologi
- Kepuasan konsumen

1.3 Tujuan

Tujuan disusunnya laporan ini adalah untuk menyelesaikan salah satu tugas mata pembelajaran kuliah khususnya mata pelajaran Web Programming I. Mengenali atau menggunakan Visual Studio Code dan database MySQL dengan baik serta program sederhana menggunakan HTML, CSS dan Javascript, serta PHP

BAB 2

PEMBAHASAN

2.1 Landasan Teori

- **HTML (Hypertext Markup Language)**
adalah singkatan dari Hypertext Markup Language. Ini adalah bahasa markah yang digunakan untuk membuat struktur dasar suatu halaman web. HTML memungkinkan penataan dan pemformatan teks, penambahan gambar, pembuatan hyperlink, dan elemen-elemen dasar lainnya untuk membangun halaman web yang dapat diakses melalui browser.
- **CSS (Cascading Style Sheet)**
digunakan untuk mengontrol tata letak dan gaya visual elemen-elemen HTML. Dengan CSS, pengembang dapat menentukan warna, font, ukuran, dan posisi elemen-elemen pada halaman web. Ini memisahkan struktur dan gaya, memungkinkan perubahan tata letak tanpa mengubah struktur HTML.
- **JavaScript**
adalah bahasa pemrograman yang digunakan untuk membuat interaksi dinamis di dalam halaman web. Dengan JavaScript, pengembang dapat menambahkan efek animasi, validasi formulir, manipulasi elemen halaman, dan berbagai fungsionalitas interaktif lainnya.
- **PHP (Hypertext Preprocessor)**
adalah bahasa pemrograman sisi server yang digunakan untuk mengembangkan aplikasi web dinamis. PHP memproses kode di server sebelum mengirimkan hasilnya ke browser pengguna. Ini sering digunakan untuk mengelola formulir, berinteraksi dengan database, dan membuat halaman web yang responsif.
- **Database**
adalah penyimpanan terstruktur untuk menyimpan dan mengelola data. Dalam konteks pengembangan web, database digunakan untuk menyimpan informasi seperti pengguna, produk, atau konten lainnya. Database menyediakan cara efisien untuk menyimpan, mengambil, dan memanipulasi data.
- **MySQL**
adalah sistem manajemen basis data (DBMS) yang sering digunakan dalam pengembangan web. MySQL memungkinkan pengelolaan data dalam bentuk tabel dan menyediakan bahasa kueri (SQL) untuk melakukan operasi seperti pengambilan data, penyisipan, pembaruan, dan penghapusan data dalam database. MySQL sering digunakan bersama dengan PHP untuk membuat aplikasi web dinamis.

2.2 Analisa Masalah

- Program di buat melalui Visual Studio Code dan database MySQL
- Menampilkan berbagai menu seperti home, shop, blog, about, contact dan cart. Tidak lupa dengan login logout nya yang terkoneksi dengan database

2.3 Coding

Index.php (Login)

```
1  <?php
2  session_start();
3  include 'connection.php';
4
5  // Cek jika form tersubmit
6  if ($_SERVER['REQUEST_METHOD'] === 'POST') {
7      // ambil username dan password dari form
8      $username = mysqli_real_escape_string($conn, $_POST['username']);
9      $password = mysqli_real_escape_string($conn, $_POST['password']);
10
11     // Query database cek user
12     $query = "SELECT * FROM user WHERE username = '$username' AND password = '$password'";
13     $result = mysqli_query($conn, $query);
14
15     // Cek jika matching user ditemukan
16     if ($result && mysqli_num_rows($result) > 0) {
17         // Fetch user data and store in session
18         $user_data = mysqli_fetch_assoc($result);
19         $_SESSION['pengguna'] = $user_data;
20
21         // mengarahkan ke home page jika berhasil
22         header("location:home.php");
23         exit();
24     } else {
25         // mengarahkan kembali ke login page dengan pesan gagal
26         header("location:index.php?pesan=gagal");
27         exit();
28     }

2.4 User Interface

Login Form

The screenshot shows a web browser window titled "Login" with the URL "localhost/MALAS/index.php". The background of the page features a repeating pattern of the word "MALAS" and a crown icon. A central modal dialog box contains fields for "Username" and "Password", a "Remember Me" checkbox, a "Forgot Password" link, and a "Login" button. Below the modal is a link "Don't Have an Account? Register".

Registration Form

The screenshot shows a web browser window titled "Register" with the URL "localhost/MALAS/register.php". The background pattern of "MALAS" and crowns is identical to the login page. A modal dialog box contains fields for "Username", "Password", "Name", "Email", and "Phone", each with a corresponding icon (person, lock, clipboard, envelope, phone). Below these fields is a "Register" button, and at the bottom of the modal is a link "Already have an account? Login".

Reset Password Form

A screenshot of a web browser window titled "Reset Password". The URL in the address bar is "localhost/MALAS/forgotPass.php". The main content is a modal dialog titled "Reset Password" containing two input fields: "Username/Email/Phone" and "New Password", each with a small icon next to it. Below the fields is a "Reset" button. At the bottom of the modal, there is a link "Already have an account? Login". The background of the page has a repeating pattern of the word "MALAS" and a crown icon.

Home Page

A screenshot of a web browser window titled "MALAS STORE". The URL in the address bar is "localhost/MALAS/home.php". The page features a navigation bar with links for Home, Shop, Blog, About, Contact, Logout, and a shopping cart icon. On the left side, there is promotional text: "Trade-in-specials" followed by "Explore Epic Deals Across Every Product" in large, bold letters. Below this, a smaller text says "Unlock Savings: Up to 70% Off with Coupons!". A yellow "Shop Now" button is visible. On the right side, there is a large image of a woman with long blonde hair, wearing a green jacket, looking over her shoulder. In the bottom right corner of the image, there is a small lightning bolt icon.

Product Details Page

The screenshot shows a product page for a "Fresh Lily T-Shirts". At the top, there's a navigation bar with links for Home, Shop (which is underlined), Blog, About, Contact, Logout, and a shopping cart icon. Below the navigation is a large image of a white short-sleeved button-down shirt with a vibrant green and orange lily floral pattern. To the left of the main image are four smaller thumbnail images of different shirts. To the right of the main image, the category "Shop / T-Shirt" is displayed, followed by the product name "Fresh Lily T-Shirts" and the price "RP 120000". A dropdown menu shows "XL" selected. Below the size dropdown is a quantity selector set to "4" and a blue "Add To Cart" button. A "Product Details" section follows, containing a detailed paragraph about the shirt's quality and craftsmanship, ending with a "Read More" link.

Blog Page

The screenshot shows a blog page. At the top, there's a navigation bar with links for Home, Shop, Blog (which is underlined), About, Contact, Logout, and a shopping cart icon. The main content area features a large, blurry image of a person holding a book or document. Overlaid on this image is a large, bold "READ MORE" button and the text "Read All Case Studies About Our Products!". Below the image, there's a section titled "Elegant Long Coat" with a small image of a man and a woman wearing long coats. A "Read More" link is also present here.

The Casual Hoodie

The hoodie, a casual wardrobe essential, is celebrated for its comfort and laid-back style. Characterized by its attached hood and often featuring a front pocket, this versatile garment effortlessly blends fashion with functionality. The hoodie has evolved beyond its athletic roots to become a symbol of urban streetwear and a go-to choice for individuals seeking a comfortable yet trendy look. With its soft and cozy fabric, the hoodie provides a feeling of warmth and relaxation, making it the perfect choice for casual outings, lounging at home, or staying cozy during cooler weather. The attached hood not only adds a touch of urban flair but also provides an extra layer of protection against the elements, making it an ideal companion for unpredictable weather conditions. Hoodies come in a myriad of styles, colors, and designs, catering to diverse tastes and preferences. From classic solid colors to bold patterns and graphics, the hoodie allows individuals to showcase their personality and sense of style. It effortlessly transitions from a lazy day at home to a stylish streetwear statement, making it a versatile piece in any wardrobe.

Explore Who We Are And What Sets Us Apart

Who We Are?

We're more than just an e-commerce website, we're a community of fashion and lifestyle enthusiasts who understand that every purchase is more than just a transaction. Here, we strive to create a shopping experience.

Contact Page

The screenshot shows a contact page for 'MALAS STORE'. At the top, there's a navigation bar with links for Home, Shop, Blog, About, Contact, Logout, and a shopping cart icon. Below the navigation is a large banner featuring a colorful array of clothing items. Overlaid on the banner is the text 'LET'S TALK' in large white letters, followed by the subtitle 'Join the Conversation and Explore a World of Ideas!' in smaller text. To the right of the banner is a map of the AEON MALL Jakarta Garden City area, showing its location relative to other landmarks like J-Sky Ferris Wheel and Easy Vape Store.

BAB 3

PENUTUP

Dari pembahasan di atas dapat disimpulkan bahwa e-commerce bukan sekadar model bisnis, ini adalah revolusi digital yang mengubah cara pandang perdagangan. Dengan memahami, mengikuti tren, dan berinovasi, kita menghadapi masa depan penuh potensi. E-commerce bukan hanya kekuatan ekonomi, tetapi juga membentuk bisnis global yang dinamis. Dengan layanan berkualitas, keamanan, dan inovasi, e-commerce dapat menjadi kekuatan utama di pasar global. Kolaborasi antara pelaku bisnis, pemerintah, dan konsumen penting untuk mendukung ekosistem e-commerce yang berkelanjutan.

Demikian makalah yang kami buat, kami harap makalah ini bisa bermanfaat bagi semuanya dan dapat menambah pengetahuan mengenai bagaimana membuat web penjualan dengan Visual Studio Code serta cara kerja dari sebuah database. Sekian dan terimakasih.
